Polytrauma/TBI Program

Physical Medicine and Rehabilitation

We are your VISN 16 Polytrauma Support Clinic Team (PSCT)

Our teams of highly qualified rehabilitation experts blend unmatched experience with advanced technology and the creative spirit that has led to many important initiatives in the art and science of rehabilitation medicine. We provide an interdisciplinary approach to the treatment for OEF/OIF Veterans. Our team is located at two sites: Jack C. Montgomery VA Medical Center in Muskogee and Ernest Childers VA Outpatient Clinic in Tulsa.

Our Mission

With a positive and caring attitude, Our PCST pledges to offer opportunities for new hopes and possibilities as Veterans are reintegrated into their home communities. It is our mission to provide a compassionate, competent and caring environment for OIF/OEF Veterans in their Polytrauma/TBI recovery process.

The Polytrauma Team includes Rehabilitation Professionals such as:

Physical Medicine & Rehab Physician
Nurse Case Manager
Social Worker
Occupational Therapist
Physical Therapist
Speech-Language Pathologist
Neuropsychologist

Criteria for Acceptance

- OEF/OIF Veteran
- Active duty separation date after Sept. 11, 2001 with combat eligibility
- Positive initial TBI screen with second level TBI evaluation confirming initial screen
- Prior diagnosis of TBI

How to Refer

Veterans and health care professionals are encouraged to contact the Polytrauma team to discuss potential referrals of any combat and non-combat injured veterans who may meet criteria for the program. Any Veteran who was injured in a combat or non-combat event during active duty status will be considered for eligibility to the program.

Program Highlights

- Individualized treatment plans as developed by OT, ST, PT, SW
- Community Reintegration (work, school)
